Services Offered By Keibuild Homes

They're here to help from end-to-end. The Keibuild Homes team will take care of every aspect of building your new home—from sourcing your land to handing over your keys. If you already own land or have a block in mind, they'll visit the site for free and advise you on its suitability for your design goals. If you need assistance finding a block, the team has connections with major land developers, allowing them to find high-quality blocks at great prices. They also have house and land packages advertised on their website.

Customisable home designs. Keibuild Homes has over 100+ home designs and design options, all of which can be modified to suit your needs. If you have a sloped block, they can help with that too.

Knock down new build. If you're not happy with your current home, but love where you live, Keibuild Homes also offers a Knock Down New Build service. They'll explain the benefits, what's required, help choose a design for your block, and once demolition is complete, build your new home.
